Mark A Ball introduced the first plastic beveled edge marker in Portland, OR in 1958. Co founders Charlie Sullivan and PGA Head Pro Ted Longworth from Waverly CC teamed up together and formed the business over 60 years ago. It has been a favorite for courses from the East to West Coast. Craig Pelzer bought the company from Dan and Kathy Packard in January of 2015. Since then we have expanded the business by adding plastic Quarter Marks. Keep us in mind for last minute ideas for tournaments or your club logo. Turn-around time is under a week for most orders.

## Flag Assist™ Patented Ball Retrieval System

The only system permitted, under the rules of golf by USGA (USGA Decision #20220-0360)

### Increase Speed of Play!

With the rule change in 2019 regarding the flagstick and the Covid-19 pandemic, players are used to putting with the flagstick in. Many prefer it... Flag Assist™ eliminates the need to bend over for ball retrieval. Time savings will add up through the course of the day... meaning more players.... more revenue....

### Protect Your Greens!

Flag Assist™ reduces deforming and doming (the volcano effect) and helps prevent damage to the cup edge. Keeping the flagstick centered and evenly placed in the cup significantly reduces tilting and swaying, especially in windy conditions. Competition surfaces are more fair from morning to afternoon. Flag Assist™ reduces the frequency of pin replacement resulting in lower maintenance costs.

### Fits ALL Regulation Flagsticks!

The universal and proprietary nut assembly ensures receiver cup is well secured to flagsticks. High quality, durable design backed by our \*ONE YEAR WARRANTY. Fits all vinyl coated flagsticks, tapered flagsticks and standard regulation flagsticks, regardless of brand. Installation is fast and simple!

## Ad-A-Flag™ By Flag Assist™

### A new way to read the green \$\$\$!

Ad-A-Flag™ is a new, patented, legal device and service that will fundamentally alter the way tournaments and communications are conducted on your golf course! Ad-A-Flag™ will generate revenue to your facility which previously went unrealized. Basically, it's advertising on the flagsticks... with QR codes!

### Save time and earn money!

Tournament coordinators know when a client's outside event comes to your course they have already spent thousands with printing companies on sponsorship signs. It then becomes your staff's responsibility to place, remove and store these signs. Your facility receives no revenue from the signs and it is fair to say that not many people read them.

Ad-A-Flag™ is better for you AND the sponsor since the message is on the flagstick at eye level. QR codes direct players to coupons, services or messages the sponsor wants. Ad-A-Flag™ can be used for any message, not just advertising. Private clubs can easily communicate with the membership regarding club activities such as dances, tennis lessons, auctions and chef's specials. Major corporations have noticed Ad-A-Flag™ as a new advertising medium. This may mean regular revenue to cash strapped facilities. Coupled with sponsorship tabs on Flag Assist™ in the bottom of the hole, your message will be noticed!

**Mark A Ball** introduced the first plastic beveled edge marker in Portland, OR in 1958. Co founders Charlie Sullivan and PGA Head Pro Ted Longworth from Waverly CC teamed up together and formed the business over 60 years ago. It has been a favorite for courses from the East to West Coast. Craig Pelzer bought the company from Dan and Kathy Packard in January of 2015. Since then we have expanded the business by adding plastic Quarter Marks. Keep us in mind for last minute ideas for tournaments or your club logo. Turnaround time is under a week for most orders.
