PELZER
GOLF SUPPLIES

Pelzer Golf Supplies have been in business for over 40 years. We take pride in our customer service and we are here to dedicate our service to wholesale golf accounts across the country. We specialize in carrying items that move quickly, such as tees, pencils, cleats, grips, and other accessories that pro shops and golf-related businesses are in constant need of.

THE BEST CUSTOMER SERVICE AROUND.

When you call Pelzer Golf you will talk to a real person. No robots, no menus to fight through, just a real person on the other end that wants to give you the best experience possible while ordering.

- **Same Day Shipping**

We can get your product out the door on the same day you place an order!

- **Customize It!**

Get your name or logo on a variety of products.

- **Customer Service**

Talk with a person you know to answer your questions.

- **Exceptional Knowledge**

We are up to date on new products and old ones to get you the best!

FEATURED PRODUCTS!

From Work to Play™

with Classic Apparel that allows you to transition from the boardroom to the fairway.

2025 STITCH® Catalog

We know that you will find the STITCH® product assortment to have something for everyone at your club.

ZEROFIT BASELAYER CLOTHING

ZEROFIT HEATRUB ULTIMATE BASELAYER

FIVE TIMES WARMER THAN A STANDARD MODEL

Independently tested at the iconic Boken Institute in Osaka, the Ultimate has proven to be five times warmer than leading competitors, so whether your passion is fishing, walking, hiking, farming, sailing, gardening, bowling, bird watching, snowboarding, skiing, photography, motorcycling, golf or equestrian sports – the Ultimate has got you covered, even in the coldest of conditions. It's also the perfect baselayer to wear when watching your favorite sport or team in an icy cold stadium.

Testing at the Institute resulted in a heat retention rating of 0.78; a standard baselayer would have a rating of 0.1-0.14, while a sweater would typically have a rating of around 0.3.

Extra-long 'Heat Threads' on the inside of the garment (you can actually see them) gently rub against your skin as you move. This creates frictional heat which means that instant warmth is retained, and the Ultimate has been designed to work in a temperature range of 14° - 50° Fahrenheit.

ULTIMATE LEGGINGS

These are manufactured using the same patented knit process and material as the Ultimate baselayer and perform in the same way - a popular addition for many outdoor enthusiasts who want to be warm from top to bottom.

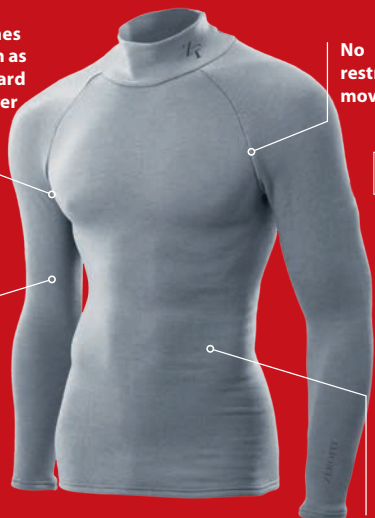

Five times as warm as a standard baselayer

No restriction, move free

Instant warmth, no need for multiple additional layers

Temperature regulation and 'All Day Warmth'

ULTIMATE BASELAYER COLOR OPTIONS

1. Zerofit Heatrub Ultimate – Grey
 2. Zerofit Heatrub Ultimate – Black
 3. Zerofit Heatrub Ultimate – White
- www.zerofitusa.com

ZEROFIT HEATRUB MOVE BASELAYER

TWICE AS WARM AS A STANDARD MODEL

The Heatrub Move has been independently tested and proven to be twice as warm as a standard baselayer, performing best for athletes competing in activities including cycling, running, soccer and rugby.

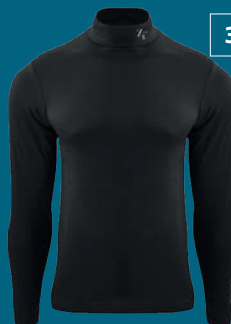

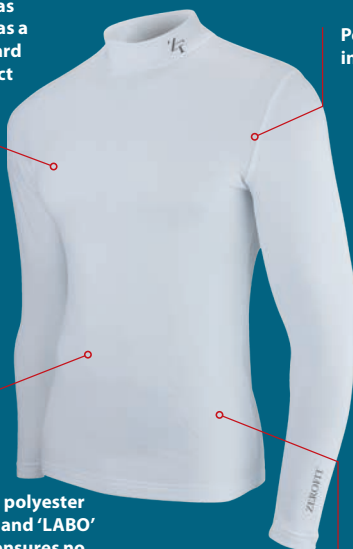

The Move features a 45% polypropylene construction on the inside of the baselayer as well as a hollow polyester shell that work in tandem to ensure athletes will never experience the unpleasant feeling of cold sweat on the body after exercise has ended. More heat is retained for longer, and the innovative insulating properties, combined with its hydrophobic nature, keeps the athlete dry and warm, while the stretchable fabric allows freedom of movement. The Move also offers temperature regulation, so as athletes work harder for longer, they don't overheat in the conditions. The product has been innovated with a temperature range of 23° - 54° Fahrenheit in mind.

Twice as warm as a standard product

Perfect for higher intensity sports

Hollow polyester design and 'LABO' fabric ensures no cold sweat

Move free due to stretchable fabric

MOVE BASELAYER COLOR OPTIONS

1. Zerofit Heatrub Move – White
 2. Zerofit Heatrub Move – Titanium
 3. Zerofit Heatrub Move – Black
- www.zerofitusa.com

HEATRUB PERFORMANCE MOVE HOODIE

The Move Hoodie (available in black only) is made from the same material as the baselayer, and is perfect for athletes before and after training, and ideal for spectator sports during the cold months, as well as gardening, golf, sailing or racing around the park with your kids on the weekend.

BALL MARKERS

Mark A Ball introduced the first plastic beveled edge marker in Portland, OR in 1958. Co founders Charlie Sullivan and PGA Head Pro Ted Longworth from Waverley CC teamed up together and formed the business over 60 years ago. It has been a favorite for courses from the East to West Coast. Craig Pelzer bought the company from Dan and Kathy Packard in January of 2015. Since then we have expanded the business by adding plastic Quarter Marks. Keep us in mind for last minute ideas for tournaments or your club logo. Turnaround time is under a week for most orders.

LASER RANGEFINDERS

**NIKON
GOLF**

COOLSHOT 50i GII

When you need to know the distance of a shot quickly, grab the COOLSHOT 50i GII off your cart or bag carrier. In an instant, you'll know how far the shot is with or without slope compensation. Going for the green? DUAL LOCKED ON QUAKE gives a visual confirmation and a vibration when it detects the flagstick. And thanks to Nikon's world-class optics, you'll always have a bright, clear 6X magnified view.

ZEUS BATTERY

- Reliable performance
- Lithium
- 2 Pack

COOLSHOT PRO III STABILIZED

See the course in an entirely new way through the latest generation of Nikon's acclaimed stabilized rangefinder. World-class optics with 6X magnification deliver a crystal clear view, while advanced stabilization technology counteracts hand shake making it easier to plan your shots. With improved HYPER READ technology, yardage is displayed faster than ever, and flagstick detection ensures your aim is true—all in a lightweight, waterproof design that will provide years of precision performance.

COOLSHOT 20i GIII

When it comes to club selection, knowing the distance of your shot is everything. The lightweight, compact COOLSHOT 20i GIII gives you both actual distance and slope-adjusted measurements to account for distance with uphill or downhill shots—rain or shine. Measure up to 800 yards within 2 yards of accuracy. Reliably target the flagstick with First Target Priority mode, and get a clear confirmation vibration with LOCKED ON QUAKE when you hit it. You can even scan your surroundings for up to 8 seconds to get the lay of the land. Give your game a new angle.

COOLSHOT 20 GIII

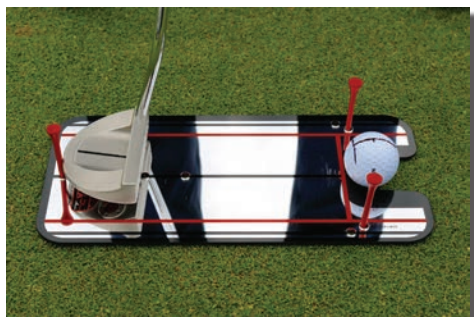

The lightweight, compact COOLSHOT 20 GIII gives you actual distance measurements in an instant - crucial for picking the right club. Measure up to 800 yards within 2 yards of accuracy, rain or shine. Reliably target the flagstick with First Target Priority mode, and get a confirmation vibration with LOCKED ON QUAKE when you hit it. You can even scan your surroundings up to 8 seconds to get the lay of the land. Give your game the accuracy it deserves.

TRAINING AIDS

IMPACT BAG

The Impact Bag is safe and has been designed specifically for golfers. Developing a strong left side while turning into the ball will help eliminate many of the inconsistencies brought on by left wrist collapse and will help bring you into a solid, assertive impact.

PUTTING ALIGNMENT MIRROR

The Putting Alignment Mirror is very portable so it will store in your bag when not in use. An instant diagnostic tool for your putting stroke. Make a good stroke and the center line will roll straight and true. Use the red impact ball line to bring your focus to hitting the back of the ball squarely.

LINE M UP

Enhance your ability to putt the greens with multiple marking options. Perfect visual guide for your putting game. Sharpie included.

THE STACK

5 milled Stack weights enable 30 weight combinations between 0g and 300g. Dual-purpose weight case / phone stand. Highly engineered training club.

TOUR STICKS

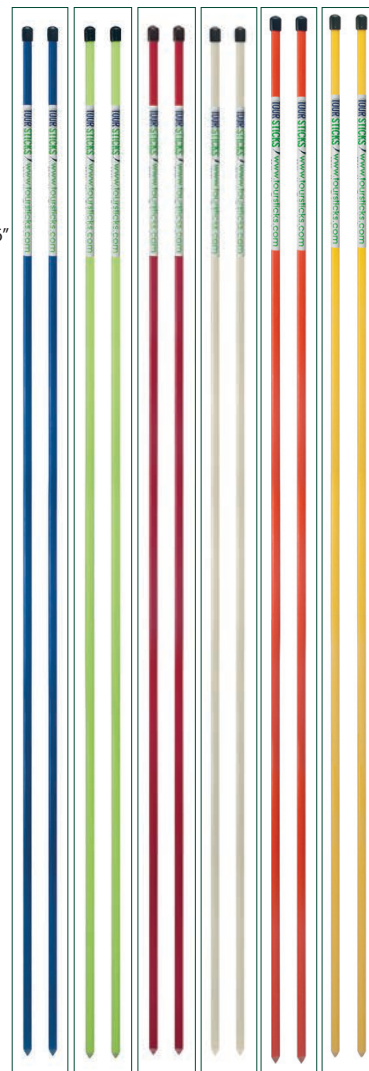

IMPROVE YOUR GOLF SWING WITH THE #1 TRAINING AID USED BY TOUR PROS

Get golf swing help with Tour Sticks, a pair of innovative fiberglass rods that golfers use as a portable, multifunctional training tool to reinforce fundamentals of the golf swing. Due to the versatility of this golf swing product, the alignment sticks are suitable for golfers of all levels and ages.

Tour Sticks are a great teaching aid for coaches and make a perfect gift for that golf-obsessed fan in your life.

- Two smooth fiberglass rods measuring 5/16" x 46"
- Rubber cap on one end; pointed on the other
- Instructional flyer with multiple drills
- Portable and lightweight holding tube included
- UV-coated to prevent fading
- Blue, Green, Red, White, Yellow and Orange
- Custom logos available

PENDULUM PUTTING ROD

Using the Pendulum Putting Rod helps you with critical fundamentals such as a perfect one-piece connection between the shoulders, arms, and hands. It also helps keep the stroke on-plane back and through.

BAG SHAGS & RANGE SUPPLIES

MADEWELL ORIGINAL BAG SHAGS

ORIGINAL BAG SHAG WITH CUSTOM LOGO

Customize your Original Bag Shag with a logo. Just pick the fabric color of your choice. MINIMUM ORDER QUANTITY IS 6.

BAG SHAG RANGER

The BAG SHAG RANGER is a hand held golf ball retriever designed to hold 100 golf balls. Its open top design eliminates the need for a zipper so the balls empty through the top. It features a strong UV resistant cordura bag. BLACK, RED AND GREEN IN STOCK.

ORIGINAL BAG SHAG

This is a hand held, golf ball retrieving device used to improve practice time. It also reduces back strain associated with repetitive bending to pick up golf balls. It holds 75 golf balls and we will guarantee it from defects for 10 years!

Black, Red, Green and Blue

BALSHAG TUBE

The BALSHAG Tube stands 38" high and holds 23 balls. It is the only tube of its kind made from aluminum. It works great on the driving range to pick up balls in the mud, tall grass or any hard-to-reach place.

GRIPPING STATION

Save valuable time and improve consistency of your regrips with this well designed Gripping Station. Built to last under high-volume production, the vise-mounted gripping station is compact and easy to use. The alignment bar indexes the leading edge of both right- and left-handed woods and irons, ensuring proper alignment. The quick clamp secures any diameter golf shaft and is safe to use with both graphite and steel shafts. The vise mounted gripping station comes complete with a solvent recovery pan and two tape dispensers - one for each of the double-sided tape and build-up tape. (Vise not included)

CLEATS

PULSAR

Pulsar is the most popular cleat in the industry. Pulsar golf cleats feature eight flexible legs, providing exceptional comfort. The green-friendly pads on the legs assist in grip and traction.

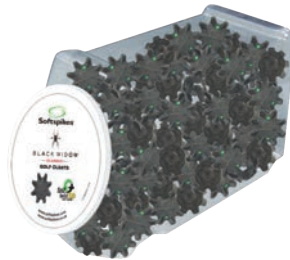

TOURFLEXPRO

The next generation of traction technology is here. Three degrees of traction, ten points of contact, engineered to deliver incredible control and unmatched stability. Tour Flex Pro is the perfect combination of traction, comfort, and performance - designed specifically to meet the needs of the best players in the world.

BLACK WIDOW

Black Widow golf cleats feature eight flexible legs for the ultimate in comfort and traction. Black Widow is the only cleat that is offered in four different insert options.

STEALTH

Black Widow golf cleats feature eight flexible legs for the ultimate in comfort and traction. Black Widow is the only cleat that is offered in four different insert options.

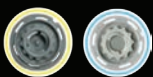

SPIKE REPLACEMENT GUIDE

Find your shoe brand and match your shoe's cleat receptacle. Then choose any Champ spike package that fits that Insert System.

Use Fast Twist 3.0 if your receptacle looks like this:

Use PINS if your receptacle looks like this:

stubbart (PCT II Spiklet, Evolve Tour II Spiklet)

Resources & Training for CORE Golf Pride Partners

GOLFPRIDE.COM/CORE

The New Decade® MultiCompound MCC Plus4™ is a tour-proven, hybrid grip that features a larger lower hand and new softer rubber material. With a 4.6% larger lower hand diameter than the Original MCC, the Plus4 encourages lighter grip pressure, reduced tension, and increased power. The lower hand features a soft, responsive rubber compound ideal for enhanced feel. The upper hand material is a soft compound with Brushed Cotton Cord and new, strategically placed Micro-Plus4-LogoTexture for downswing stability. The larger lower hand, new softer material and all-weather control deliver new performance options to the #1 Hybrid Grip on Tour

The SuperStroke NFL team club grips are created with our most advanced swing grip technologies. It starts with Traxion Control, our new surface texture that improves feedback and tackiness from the incredibly soft polyurethane outer layer. Underneath we added Torsional Performance, which employs a firm rubber core to add high performance stability and control. The SuperStroke NFL team club grips also feature Taper Control Technology, which boosts the size of the lower hand area to help golfers reduce tension and improve clubhead speed. So go ahead and show your team colors on the course.... It's game time!

SuperStroke Claw® is designed to work with the many variations of the fast-growing, deadly accurate claw putting style. The Claw™'s unique design incorporates a pistol-style top section that helps lock in the upper hand, while its three flat sides increase surface area to accommodate different lower hand positions.

CLAW SERIES

DESCRIPTION	COLOR	WIDTH	LENGTH	WEIGHT	CORE
Claw 1.0	White/Black, White/Red	1.20"	10.50"	51 g	.58"
Claw 2.0	White/Black, White/Red	1.21"	10.50"	63 g	.58"

Tour Series putter grips feature SuperStroke's traditional and most popular putter grip profile. The Tour Series parallel design has uniform lower hand profile to minimize grip pressure and maintain putter head path for a more consistent stroke.

The WristLock putter grip conforms with the Rules of Golf and is engineered to "lock" in the upper wrist to prevent any unwanted motion leads to greater consistency in starting the ball on-line and overall distance control. Patented No Taper Technology creates even grip pressure for a more consistent stroke. Parallel design has uniform lower hand profile to minimize grip pressure and maintain putter head path for a more consistent stroke.
